MAIN FEATURES

- A total of 17,693 original reports were received for accidents and diseases which occurred in 1981-82, up 6.7 per cent on 1980-81. An increase of 155 per cent to 1,912 noise induced hearing loss claims involving less than 1 week absence from work was mainly responsible for the rise.

- There were 42 fatalities and 79 cases of permanent total disability.

- The remaining 15,660 cases (down 0.4 per cent on 1980-81) all involved an absence from work of 1 week or more. Compared with 1980-81:

  (a) accidents while working were down 1.1 per cent to 13,524, with average absence up 0.4 weeks to 5.8. The proportion resulting in permanent partial disability rose from 7.0 per cent to 8.5 per cent or 1,148 cases.

  (b) diseases were down 5.9 per cent to 825, with average absence up 0.7 weeks to 8.4. The proportion resulting in permanent partial disability rose from 10.8 per cent to 13.0 per cent or 107 cases.

EXPLANATORY NOTES

INTRODUCTION

Statistics in this bulletin have been compiled on the basis of the year each event (accident or disease) OCCURRED, rather than on the basis of the year in which each claim was closed as was the case before 1980-81. Reports compiled from workers compensation claims are submitted by insurance companies, self-insurers, and State Government departments through the South Australian Department of Labour.

2. The reporting system provides that for events which occurred during 1981-82:

  (a) reports were to be completed progressively as claims were closed;

  (b) for claims unclosed at 30 September 1982, insurers were to submit reports during October 1982 including their estimates of final outcome, total payments and absence.

Not all relevant reports were received in time for inclusion in this publication. Appendix E provides an indication of the extent of late reporting. Users should therefore be cautious in interpreting year to year movements.

3. Only claims within the scope of the South Australian Workers Compensation Act, 1971-1979 are included provided that they result in any one of the following:

  (a) absence from work of one week or more;
  (b) death;
  (c) permanent total disability;
  (d) noise induced hearing loss.

Notable exclusions are most self-employed persons and all Australian Government employees. Exclusion of self-employed persons is likely to have a marked effect on figures for industries where self-employment is prevalent (e.g. retail trade, rural industries). Because of the exclusion of Commonwealth Government employees, some industry classifications are not covered at all (e.g. defence services and communications), while coverage is reduced in other industries.

4. Some details of journey and recess accident cases, noise induced hearing loss disease cases involving time lost from work of less than 1 week and of re-opened cases are included in various appendices. Details of these cases are excluded from Tables 1-23.

DEFINITIONS

5. For the purposes of this collection the following definitions have been adopted.

Agency of accident. The underlying factor (object, substance or circumstance), other than human failing, which was most closely associated with the accident and which in general could have been guarded against or corrected.

Amount paid. Compensation for wages lost and hospital and medical payments and lump sum settlements. Estimates in respect of unclosed claims are included. Payments recovered under third party motor vehicle insurance policies are excluded.

Date of occurrence. For an accident, the date the original injury occurred. For a disease, the date on which the employee last worked or, for noise induced hearing loss cases involving no time lost from work, the date on which the hearing loss was diagnosed or the date the claim was made, whichever was earliest.

Industrial accident. An event following an isolated and sudden exposure to a hazard and resulting in a compensatable work injury. Such events may occur while working, while travelling between one's residence and place of work (journey cases) or during recess periods.

Industrial disease. A compensatable condition exhibiting at least one of the following characteristics:

(a) the slow and protracted nature of its cause;

(b) its ascribability to repeated or continuous action of a mechanical, physical or chemical nature;

(c) the indeterminateness of the time of its beginning;

(d) possible individual predisposition as a factor in the development of the condition.

Type of accident. Either the manner of contact of the injured person with the object or substance, or the exposure or movement of the person which resulted in the injury.

CLASSIFICATIONS

6. For the purposes of this publication the following classifications have been adopted.

Agency and type of accident. Both classifications are based on those recommended by the International Labour Office (ILO).

Nature of disease/injury. Both based on the ninth revision (1975) of the World Health Organisation's International Statistical Classification of Diseases, Injuries and Causes of Death.

Industry. The workplace of the injured worker is classified in accordance with the 1978 edition of the Australian Standard Industrial Classification.

Location of injury. The location of the principal injury is classified in accordance with ILO recommendations.

Occupation. Classified in accordance with the 1976 Population Census Classification of Occupations.

COMPARABILITY OF SERIES

7. Before 1980-81:

(a) details for non-fatal events were compiled for the year in which each claim was closed, except where a claim remained open for three years. In this latter case the claim was treated as closed for statistical purposes after three years;

(b) diseases caused by an identifiable single event were classified as accidents;

(c) events resulting in permanent total disability had 'time lost' statistically set at 156 weeks.

From 1980-81:

(a) details are compiled for the year in which the compensatable events occur;

(b) diseases described as being caused by a single event are classified as diseases;

(c) no 'time lost' is applied for events resulting in permanent total disability;

(d) data on journey and recess accident cases and certain noise induced hearing loss cases were introduced for the first time.

For 1981-82, an increase in the number of noise induced hearing loss cases may have been partly due to the then impending changes in the Workers Compensation Act which subsequently came into operation on 1 July 1982.

RELATED PUBLICATIONS

8. Other ABS publications which may be of interest include:

Workers' Compensation Statistics, New South Wales (6301.1)
Information Paper: New Industrial Accidents Collection; Victoria - issued October 1984
Industrial Accidents, Queensland (6301.3)
Industrial Accidents (Series A), Western Australia (6301.5)
Industrial Accident Statistics, Tasmania (6301.6)

9. Unpublished data from the South Australian collection are available upon request.

10. Current publications produced by the ABS are listed in the Catalogue of Publications, Australia (1101.0). The ABS also issues on Tuesdays and Fridays a Publications Advice (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS Office.

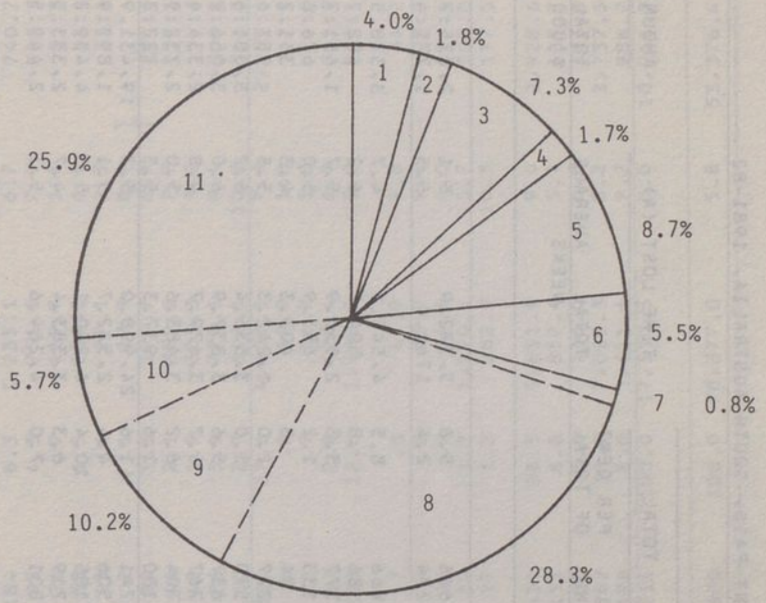

SYMBOLS AND OTHER USAGES

n.a.	not available
n.e.c.	not elsewhere classified
n.p.	not available for publication but included in totals where applicable
r	figures revised since previous issue
..	not applicable
-	nil or rounded to zero
———	break in continuity of series (where a line is drawn across a column between two consecutive figures in the same column).

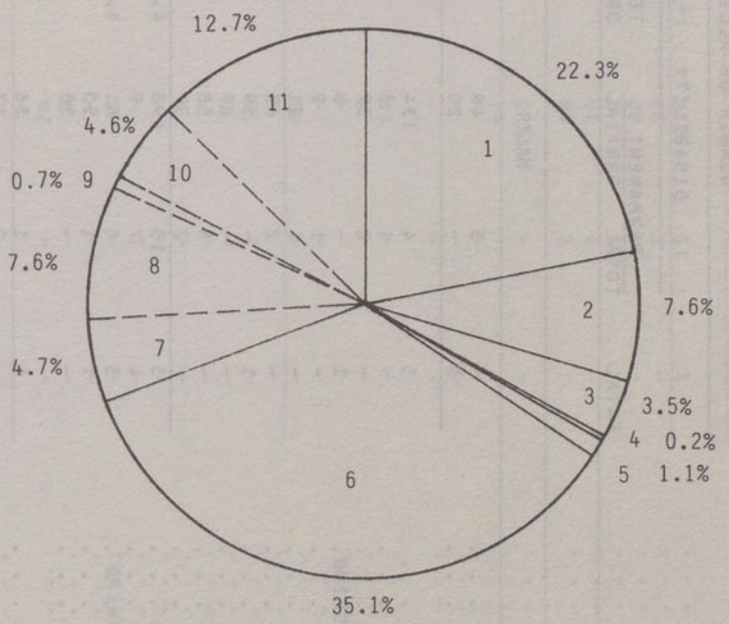

11. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

APPENDIX A

SUMMARY OF FATAL EVENTS

The number of fatal events are revised (in the table below) to include those for which reports were received too late for inclusion in statistics for the appropriate year.

FATAL EVENTS, SOUTH AUSTRALIA

Year of occurrence	Accidents			Diseases	Total
	While working	During journeys	During recesses		
1975-76	18	n.a.	n.a.	17	35
1976-77	16	n.a.	n.a.	11	27
1977-78	11	n.a.	n.a.	8	19
1978-79	20	n.a.	n.a.	9	29
1979-80	21	n.a.	n.a.	11	32
1980-81	r20	r10	-	r17	r47
1981-82	20	10	-	12	42

APPENDIX B

NOISE INDUCED HEARING LOSS CLAIMS

The noise induced hearing loss (NIHL) data in the tables below refer to non-fatal diseases which generally involve little or no time lost from work: those cases involving time lost of one week or more are included also in the main tables. 1980-81 was the first year all NIHL claims were included. When comparing the data below with that for 1980-81, refer to paragraph 7 of the Explanatory Notes.

TABLE 1 - NOISE INDUCED HEARING LOSS : OCCUPATION GROUP, NUMBER AND AMOUNT PAID
SOUTH AUSTRALIA, 1981-82

Occupation group	Number			Amount Paid		
	Males	Females	Persons	Males	Females	Persons
				$'000	$'000	$'000

SUMMARY OF ORIGINAL CLAIMS

The table below is a summary of original claims within the scope of the collection. For details of the break in series between 1980-81 and earlier years, see paragraph 7 of the Explanatory Notes.

2. Details relating to journey and recess accidents are excluded from the main tables because these events are not generally associated with the occupation of the employee nor the industry of the employer, and may not occur in the normal workplace or in the course of normal working activities.

3. For revised estimates of the number of fatal events, see Appendix A and for information enabling revised estimates of non-fatal events to be calculated, see Appendix E.

1979-80	25,992		n.a.		n.a.		n.a.		2,154		28,146		n.a.	
1980-81 (a)	43,011	(18,901)	3,813	(1,505)	281	(84)	2,239	(985)	3,965	(1,719)	53,309	(23,194)	1,468	(961)
1981-82	51,904	(24,552)	5,655	(2,385)	1,322	(1,125)	3,331	(727)	4,231	(1,693)	66,443	(30,481)	1,995	(1,662)

(a) From 1980-81 figures in brackets are estimates (see paragraph 2(b) of Explanatory Notes) and are included in the adjacent totals.
(b) From 1980-81 permanent total disability cases have no time lost; previously such cases were allotted 156 weeks. There were 79 cases in 1981-82.

Of the 17,651 non-fatal accident and disease claims for 1981-82 shown above, 985 involved time on light duties (in addition to time actually lost or estimated to be lost from work) totalling 3,882 weeks.

Total compensation already paid in respect of the 17,693 claims for 1981-82 of $36.29 million consisted of $20.65 million in the form of weekly payments, $6.65 million lump sum payments and $9.00 million other hospital and medical etc. payments. It was estimated that a further $32.14 million of payments would be made in respect of these claims.

APPENDIX D

RE-OPENED CLAIMS

A number of closed original claims are re-opened because of additional payments or further incapacity in respect of the initial accident or disease. Some of those re-openings add to the time lost and amount paid for events already counted, while others bring previously excluded events into the scope of this collection. In the table below, figures are cumulative to date and are subject to revision should additional re-opened claims be received.

2. During the 1981-82 collection period 353 re-opened claims in respect of original events which occurred in either 1980-81 (40) or 1981-82 (313) were received. The updated total number for 1980-81 (377) includes those (337) shown in the previous issue of this Bulletin.

RE-OPENED CLAIMS

Year of occurrence of original event	Previously counted events					Additional events					Total (a)	
	Accidents					Accidents						
	While working	During journeys	During recesses	Diseases	Total	While working	During journeys	During recesses	Diseases	Total		
	NUMBER											
1980-81 r	229	20	3	36	(b)288	74	5	3	7	89	377	(104)
1981-82	214	17	-	19	(b)250	51	2	2	8	63	313	(86)
	TIME LOST (WEEKS)											
1980-81 r	1,710.3	172.0	51.1	407.7	(c)2,341.1	595.0	25.5	5.6	117.0	743.1	3,084.2	(354.0)
1981-82	1,050.7	69.0	-	68.3	(c)1,188.0	338.1	4.9	4.3	58.6	405.9	1,593.9	(175.7)
	AMOUNT PAID ($'000)											
1980-81 r	1,502.9	74.1	18.6	339.9	(d)1,935.5	348.1	8.6	2.5	40.8	400.0	2,335.5	(590.9)
1981-82	1,083.4	34.5	-	78.1	(d)1,196.0	176.4	2.7	1.9	27.0	208.0	1,404.0	(487.4)

(a) Figures in brackets are estimates (see paragraph 2(b) of Explanatory Notes) and are included in the adjacent totals.
(b) Included (with original time lost and original amount paid) in the appropriate tabulations of the bulletins concerned.
(c) Additional time lost only.
(d) Additional amount paid only.

APPENDIX E

LATE REPORTS

'Late reports' is the term given to those non-fatal events for which reports were received too late for inclusion in statistics for the appropriate year and include only original claims. In the table below, figures are cumulative to date and are subject to revision should additional late reports be received.

2. Thus the latest estimate of, for example, the number of non-fatal accidents which occurred during 1980-81 while working is (13,720 + 261) = 13,981 rather than 13,720 as shown in Appendix C and in the 1980-81 issue of this Bulletin.

LATE REPORTS

	Number			Time lost			Amount paid		
Year (a)	Accidents while working	Diseases (b)	Total (c)	Accidents while working	Diseases (b)	Total (c)	Accidents while working	Diseases (b)	Total (c)
				weeks	weeks	weeks	$'000	$'000	$'000
1975-76	n.a.	n.a.	188	n.a.	n.a.	6,337	n.a.	n.a.	1,807.5
1976-77 r	n.a.	n.a.	241	n.a.	n.a.	8,990	n.a.	n.a.	3,343.5
1977-78 r	n.a.	n.a.	232	n.a.	n.a.	8,908	n.a.	n.a.	3,888.1
1978-79 r	n.a.	n.a.	152	n.a.	n.a.	6,185	n.a.	n.a.	3,002.1
1979-80 r	n.a.	n.a.	103	n.a.	n.a.	4,135	n.a.	n.a.	1,949.5
1980-81	261	38	350	3,638	700	4,979	2,908.4	565.6	3,960.8

(a) Refers to the year in which the reports should have been included.
(b) Excludes noise induced hearing loss (NIHL) cases involving less than 1 week of time lost.
(c) From 1980-81, includes NIHL cases involving less than 1 week of time lost and journey and recess cases. See paragraph 7 of the Explanatory Notes.

APPENDIX F

CLAIMS LODGED AND COMPENSATION PAID

The number of all effective claims lodged with insurance companies, self-insurers and State Government departments (including claims involving work absences of less than one week, journey and recess cases) and the amount of compensation paid during each year 1972-73 to 1981-82 are shown below.

Year	Effective claims lodged	Compensation paid
	No.	$'000
1972-73	75,000	15,400
1973-74	87,000	21,300
1974-75	84,000	36,200
1975-76	78,000	46,700
1976-77	75,100	49,200
1977-78	66,500	54,500
1978-79	64,900	56,400
1979-80	69,700	63,800
1980-81	72,400	78,300
1981-82	73,400	92,700

APPENDIX G

INDUSTRIAL INJURY OR DISEASE

REPORT ON CLAIM ARISING DURING THE YEAR ENDED 30 JUNE 19 ,
